How it started:

*1998: Teaching workshop
on how to use the web*

How it's going:

*2023: Teaching workshop
about generative AI*

Teaching Tech Through the Decades

- Better use of email
- Surfing the web
- Things you didn't know Google does
- LinkedIn, Anyone?
- Social networking for comms professionals
- Gmail 101
- Google Docs 101
- Figuring out blogs & whatever's next
- Web 2.0 terms media professionals should know
- Advanced Social Media

And now... **AI**

Teaching Tech Through the Decades

Social media workshops:

25/75/25/?

25,000+ participants

75+ cities

25+ countries

100s of sessions

Since 2010

AI workshops:

300/10/6/16

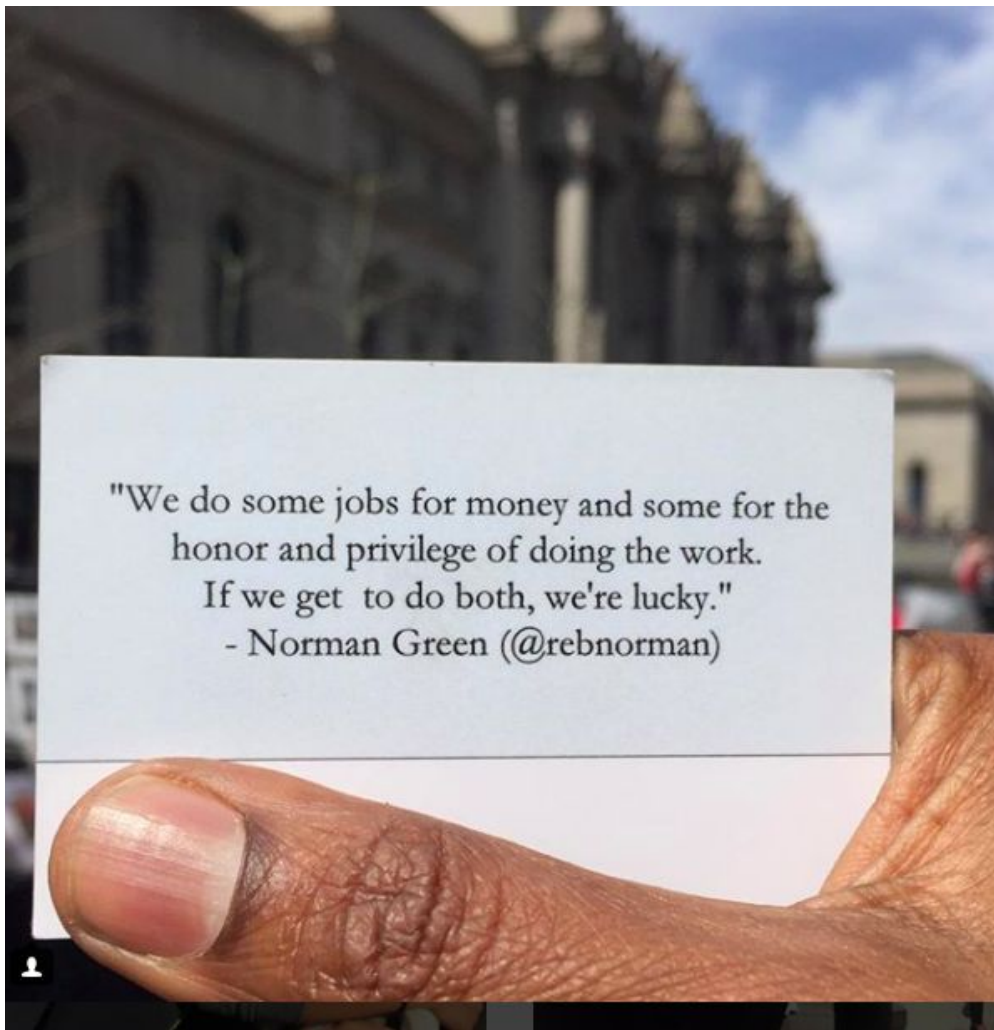

275 participants

10 cities

6 countries 

15 sessions

Since May 2023

"We do some jobs for money and some for the honor and privilege of doing the work. If we get to do both, we're lucky."

In 2016, Sreenivasan was appointed the first Chief Digital Officer of the City of New York. In this role, he led the city's efforts to improve its digital services and make it easier for New Yorkers to access information and government services online. He also launched the city's first Chief Digital Officer Fellowship program, which provides training and mentorship to aspiring digital leaders.

Sreenivasan is a frequent speaker and writer on the topics of digital media, technology, and journalism. He is also the author of the book "Digital Footprints: How Online Activity Shapes Our Lives".

Sreenivasan is a recipient of numerous awards, including the Knight Foundation's Batten Medal for Journalism Innovation, the New York Press Club's Technology Award, and the Columbia University Graduate School of Journalism's Alumni Award of Merit. He is also a member of the Council on Foreign Relations.

In his spare time, Sreenivasan enjoys playing the guitar, hiking, and spending time with his family.

Three waves of AI evolution

by Google DeepMind cofounder

Mustafa Suleyman

1. **Classification:** Training computers to classify various types of data like images and text.
2. **Generative:** The current wave, which takes input data to generate new data. ChatGPT is the best example of this.
3. **Interactive:** The next wave, where an AI will be capable of communicating and operating autonomously.

What are three things everyone should know about generative AI?

View other drafts 

Here are three things everyone should know about generative AI:

1. **Generative AI is powerful and can be used for a variety of tasks.** It can be used to create new content, such as text, images, and music. It can also be used to generate new ideas and solutions to problems.
2. **Generative AI is still under development, and there are some limitations.** For example, it can sometimes generate incorrect or misleading information. It is important to be aware of these limitations when using generative AI.
3. **Generative AI has the potential to be used for both good and bad.** It is important to use generative AI responsibly and ethically. For example, it should not be used to create fake news or to generate harmful content.

What are three things everyone should know about generative AI? Write me a tweet.

"Generative AI is revolutionizing the way we create content. From text to images and music, machines can now produce original content that's indistinguishable from human-made. However, ethical concerns arise. Let's use it responsibly and explore its potential for a better future. #generativeAI"

"3 things to keep in mind about generative AI:

1. It has the ability to create new content by learning patterns from existing data.
 2. It has been used in various industries such as music, art, and even fashion.
 3. However, it's important to note that generative AI is not without its limitations and ethical concerns.
- As with any technology, it should be used responsibly and with caution. #generativeAI #AIethics #technology"

"Hey folks, here are three things you should know about generative AI: 1) It's like a box of chocolates, you never know what you're gonna get. 2) It's not just for artists, it's for anyone who wants to unleash their creativity. 3) It's the closest thing we have to a crystal ball, predicting the future one algorithm at a time. #GenerativeAI #ArtificialIntelligence #FutureIsHere"

My Adidas By Run DMC

Walk through concert doors
And roam all over coliseum floors
I stepped on stage, at Live Aid
All the people gave and the poor got paid
And out of speakers I did speak
I wore my sneakers but I'm not a sneak
My Adidas touch the sand of a foreign land
With mic in hand, I cold took command
My Adidas and me close as can be
We make a mean team, my Adidas and me
We get around together, we down forever
And we won't be mad when caught in bad weather
My Adidas

Profile

Hardworking and experienced Receptionist with several years of experience serving as a supportive and integral employee in high volume client settings. Experienced in creating schedules, making appointments, selling products, and providing clients with optimal customer service. Bringing forth the ability to manage front desk settings with poise and grace, in addition to managing a variety of administrative duties. Eager to join a new team of people, and assist them as a dedicated and passionate Receptionist.

Employment History

Receptionist, Alfred Young Design, San Francisco

November 2014 – August 2019

- Greeted clients and provided them with information and superior service.
- Handled calls, collected personal information, and managed schedules.
- Maintained accurate client records and provided lead designers with excellent assistance.
- Managed the office database, mail, payroll distribution, and the physical setting of the front office.

Receptionist, Little Star Day Spa, Los Angeles

June 2003 – October 2014

- Answered phone calls, greeted clients, and handled all front desk responsibilities.
- Decorated the front reception area, contributing to the welcoming and peaceful environment of the spa.
- Handled spa orders, mail, and some accounting responsibilities.
- Provided clients and prospective clients with information regarding services, spa technology, and products offered.

Education

Associate of Communications, Pierce College, Los Angeles

August 2003 – May 2005

High School Diploma, Maria Regina High School, Sherman Oaks

September 1999 – June 2003

Gregory Walls
Carpenter

Profile

Skilled and passionate Carpenter with 10+ years of experience in residential and commercial building. Positive reputation for quality work, timely construction, and finishing projects at or below estimated budget. Excellent ability to communicate with clients and make their visions and dreams come to life. Knowledgeable in all aspects of building including plumbing and electrical work. Design and follow cohesive blueprints and ensure that all structures meet code. Specializing in custom cabinetry, furniture design, and the repair and installation of foundations.

Employment History

Carpenter, Timothy Glover Carpentry Inc., Bethel

2017-2018

- Provided clients with supreme customer service and worked collaboratively to achieve their construction needs.
- Renovated 20 kitchens, installing top of the line cabinetry and plumbing fixtures.
- Built 10 exterior decks and walkways, making sure each structure was up to code.
- Repaired decks and walkways that did not meet code.
- Built 5 porches and 7 front porches with overhead structures.
- Repaired and installed drywall for clients.
- Helped to complete several second story additions on former ranches.
- Upheld the integrity of the client's home and work site by ensuring that all tools and parts were cleaned up and placed neatly during construction.

Carpenter, Ringwood Inc., Brookfield

FEBRUARY 2007 – FEBRUARY 2011

- Worked one-on-one with clients to assess their needs and desires before beginning construction.
- Created clear blueprints and financial budgets, keeping in mind the client's needs and budget restrictions.
- Repaired building frameworks and structures to meet code and work properly.
- Specialized in the construction of bridge supports.
- Renovated kitchens.
- Installed and repaired siding.
- Assisted clients with the design process, giving thoughts and suggestions, while making sure to let their own vision shine through.

Education

Connecticut Carpenters Apprenticeship, Charter Oak State College, New Britain

APRIL 2008 – MAY 2012

Associate of Business Administration, SUNY Plattsburgh, Plattsburgh

APRIL 2005 – MAY 2009

WE ARE IN THE MIDST OF TEEN MENTAL HEALTH CRISIS. It's happening right now. Our children, our grandchildren, our nieces and nephews, our neighbors, are not "at risk," they are living it.

Rhetorically, social media has become the "violent video games and movies" of the modern era. For decades, lazy thinkers everywhere galvanized around violence in media as a key motivator behind depression, crime, and so many other social ills. Now, it's social media. If someone is depressed, it's because of social media. When someone shoots up a school or a Walmart, it's social media at the center of it.
